

Victoria's diverse population: 2016 Census

Victoria is home to one of the most culturally diverse societies in the world.

Of Victoria's total population of 5.93 million at the 2016 Census:

- » 28.4 per cent (1,680,271) were born overseas in over 200 countries (up from 26.2 per cent in 2011 and 23.8 per cent in 2006);
- » 49.1 per cent (2,910,631) were born overseas or born in Australia with at least one parent born overseas (up from 46.6 per cent in 2011 and 43.6 per cent in 2006);
- » 26.0 per cent (1,538,839) spoke languages other than English at home (up from 23.1 per cent in 2011 and 20.4 per cent in 2006); and
- » 59.0 per cent (3,493,950) followed more than 130 different faiths (compared to 67.7 per cent in 2011 and 68.7% in 2006).

The proportion of the overseas-born in Victoria who come from non-main English speaking countries is 77.7%. This is the highest for all Australian states and territories.

Victoria also has the second highest proportion of persons speaking a language other than English (26.0%).

Victoria continues to attract migrants from all over the world, contributing to an increasingly multicultural society.

Note:

Cells in this table and other tables in the brochure have small random adjustments to protect the confidentiality of data. These adjustments may cause the sum of rows or columns to differ by small amounts from table totals or when the same tables are generated at different occasions.

When calculating the number of persons as a % of the population, the population includes the "not stated" category.

Data for Victoria is based on Place of Usual Residence. Australia-born excludes External Territories.

(a) Includes "Inadequately described" and "At sea".

(b) Main English-speaking countries (MESC) are the UK, Ireland, New Zealand, Canada, USA and South Africa.

(c) Non-main English-speaking countries (NMESC) include all other countries of birth, except for the MESC and 'not stated'.

(d) Excludes "No Religion, so described", "Inadequately described", "Not defined" and "Not stated".

Victoria's population growth between the 2011 and 2016 censuses is among the highest in Australia. Our population is becoming more multicultural, mainly due to changing migration trends.

As shown in Table 1, the total population increased by 10.7% between 2011 and 2016, compared to 8.5% between 2006 and 2011. The overseas-born population increased by 19.6%, which is similar to 19.8% in the previous period. The number and proportion who did not state their birthplace increased at the 2016 Census.

Those born overseas made up 28.4% of the total population in 2016, compared to 26.2% in 2011. The proportion of overseas-born from non-main English-speaking countries (NMESC) was 22.0% (1,305,795), while 6.3% (374,476) were born in main English-speaking countries (MESC).

Victoria's population diversity is also evidenced by those born in Australia but have overseas-born parents. In 2016, 20.6% of the Australia-born have at least one parent born overseas. In total, those born overseas or born in Australia with at least one parent born overseas made up 49.1% of the population, an increase from 46.6% in 2011 and 43.6% in 2006.

The proportion of Victorians speaking a Language other than English (LOTE) at home was 26.0% (1,538,839) in 2016, compared to 23.1% (1,235,433) in 2011 and 20.4% in 2006. Victorians speak more than 260 languages and dialects.

The proportion of Victorians with a religion decreased from 67.5% in 2011 to 59.0% in 2016. This reflects a national trend.

Of the total overseas-born in Victoria, 58.3% are Australian citizens, 40.0% are not Australian citizens and 1.7% did not state their citizenship.

Chart 1. Victoria: Overseas-born by major geographic regions, 2006, 2011 and 2016 Census

Table 2 shows the number and percentage proportion of overseas-born persons by major geographic regions for the 2016, 2011 and 2006 censuses. Chart 1 compares the changing numbers over the three censuses.

Victorian's migration trends are changing. Although the largest groups in 2016 were from North West Europe and Southern and Eastern Europe due to their long settlement history, their percentage shares are declining.

Those born in South-East and North-East Asia, Southern and Central Asia have increased significantly in numbers and percentage share as a result of more new arrivals in the last two censuses.

Table 4 shows that English ancestry is top ranking (23.7%) of total responses, followed closely by Australian ancestry (22.1%).

The rest of the top ancestries are represented by ancestries from source countries of more established migrants and from rapidly increasing source countries from Asia.

Most diverse local government areas

Chart 2. Victoria: Top 20 LGAs, OSB as % of LGA pop, 2016

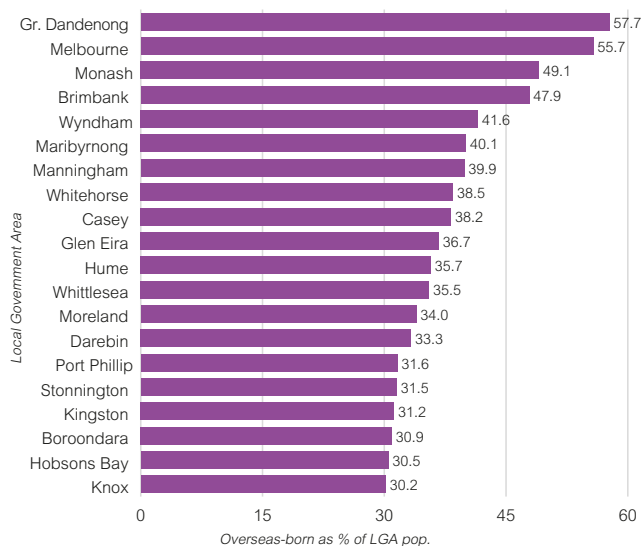

Chart 2 shows the ranking of LGAs in Victoria by the overseas-born as a percentage proportion of its LGA population. Greater Dandenong has the highest proportion of its LGA population born overseas, i.e. 57.7%, compared to an overall 28.4% for the state.

Other LGAs with high proportions of overseas-born include City of Melbourne (55.7%), Monash (49.1%), Brimbank (47.9%) and Wyndham (41.6%).

These LGAs include large, outlying suburbs and new residential growth areas.

Chart 3. Victoria: Top 20 LGAs, no. of overseas-born, 2016

Chart 3 shows the top 20 LGAs with the largest number of overseas-born residents. The ranking varies slightly compared with Chart 2. The top 5 LGAs are Casey (114,422), Brimbank (93,001), Wyndham (90,248), Monash (89,590) and Greater Dandenong (87,766). City of Melbourne is ranked sixth, jumping from thirteenth place at the 2011 Census.

Figure 1. Metropolitan Melbourne and Regional Victoria: number of overseas-born by LGAs, 2016

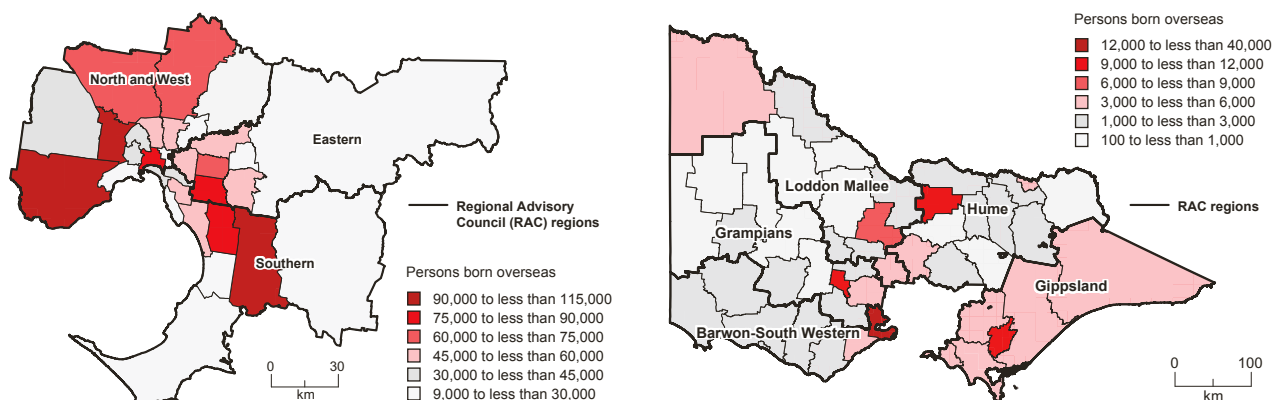

Figure 1 shows the geographic distribution of the overseas-born population by metropolitan and regional LGAs. LGAs in the northeast (such as Brimbank and Wyndham) and south-east of Metropolitan Melbourne (Casey, Monash and Greater Dandenong) have the largest number of overseas-born.

For inner city LGAs, the overseas-born in the City of Melbourne is increasing rapidly.

In Regional Victoria, LGAs with significant numbers of overseas-born are those associated with larger regional urban centres, such as the LGAs of Greater Geelong, Ballarat, Greater Bendigo, Greater Shepparton, Latrobe and Mildura.

Figure 2. Metropolitan Melbourne and Regional Victoria: % change of overseas-born by LGAs, 2016 and 2011

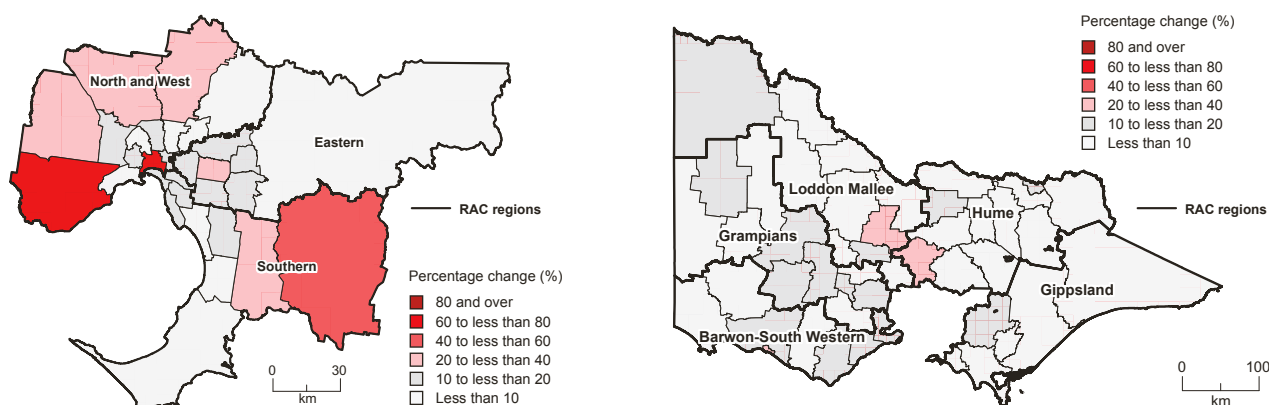

Figure 2 shows the growth patterns or percentage increases in overseas-born between 2011 and 2016. The largest increases were in the LGAs of the City of Melbourne, Wyndham (in the west) and Cardinia (in the southeast).

The overseas-born in regional LGAs experienced more moderate growth – the largest percentage increases were in Greater Bendigo and Mitchell. Migrant settlement plays an important role in contributing to population maintenance and growth in regional urban centres.

Victorians speaking a Language other than English (LOTE) at home increased by 24.6% from 1,235,433 persons in 2011 to 1,538,839 in 2016 (Table 1).

Table 5 shows that the top five LOTE in 2016 were Mandarin (up from third rank in 2011), Italian (down one rank), Greek (down one rank), Vietnamese (same rank) and Arabic (up one rank).

Languages with largest increase in number of speakers (over 10,000) were Mandarin, Punjabi, Hindi, Vietnamese, Urdu and Arabic.

Languages with a decrease in number of speakers include Italian, Greek, Turkish and Macedonian.

Distribution of LOTE speakers

Chart 4. Victoria: Top 20 LGAs, LOTE as % of LGA pop, 2016

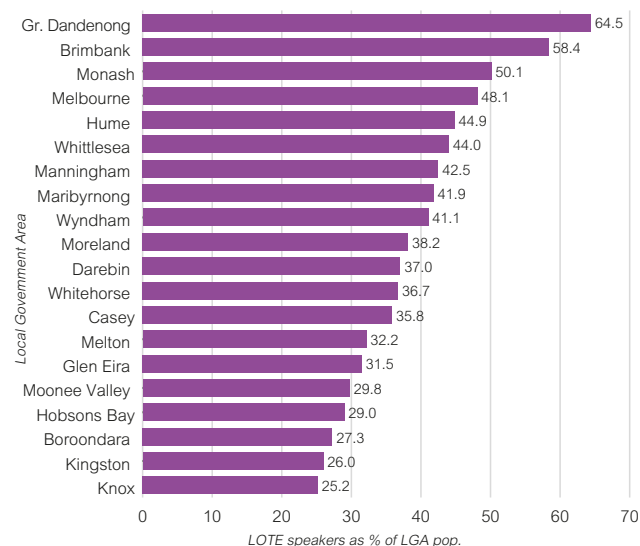

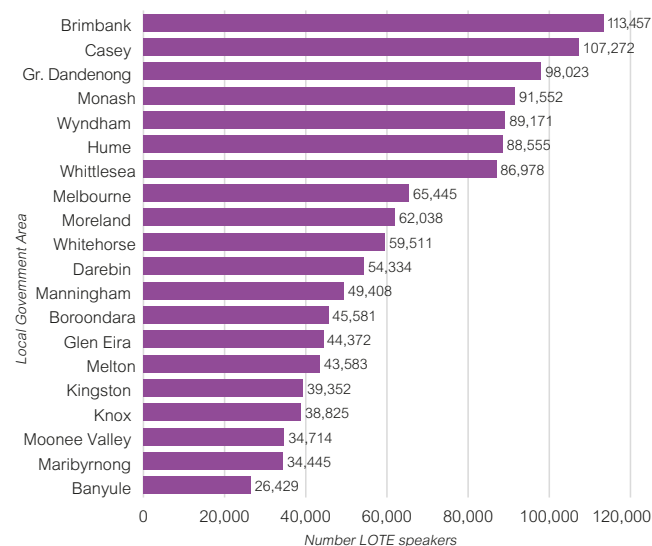

Chart 4 shows the ranking of LGAs by the percentage proportion of population in each LGA who are LOTE speakers. Greater Dandenong has the largest proportion of LOTE speakers among its population (64.5%), followed by Brimbank (58.4%), Monash (50.1%), City of Melbourne (48.1%)

Chart 5. Victoria: Top 20 LGAs, no. of LOTE speakers, 2016

and Hume (44.9%), compared to an overall 26.0% for whole of Victoria. Chart 5 shows that the rankings for the top 20 LGAs with the largest number of LOTE speakers vary from their percentage ranks in Chart 4.

Figure 3. Metropolitan Melbourne and Regional Victoria: number of LOTE speakers by LGAs, 2016

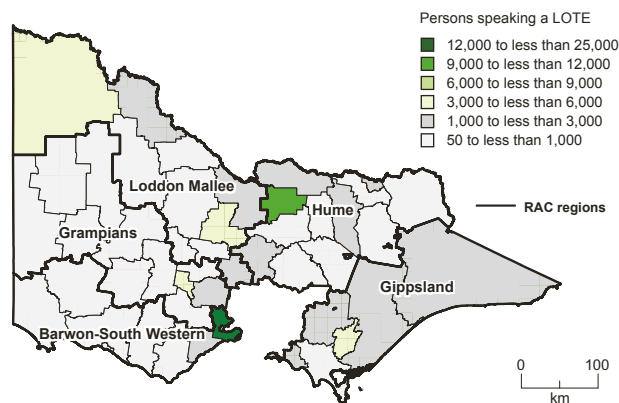

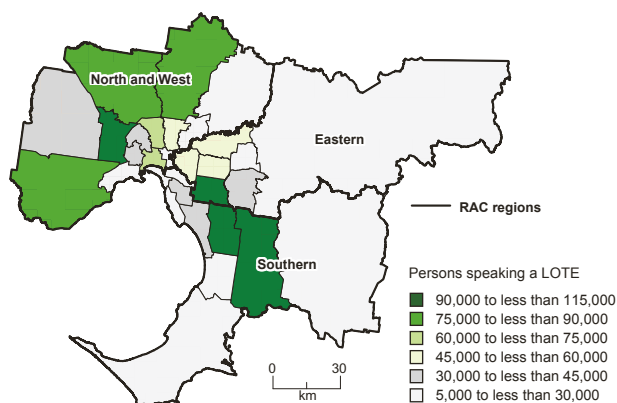

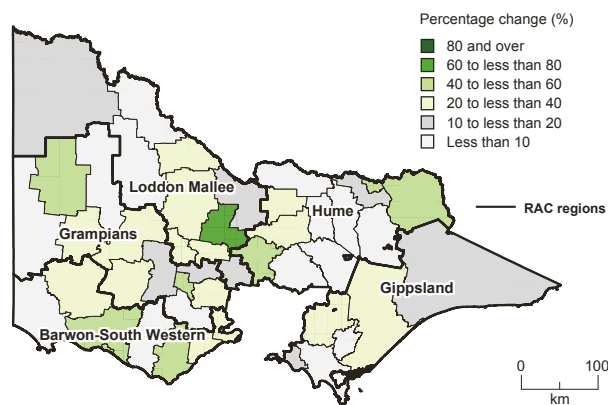

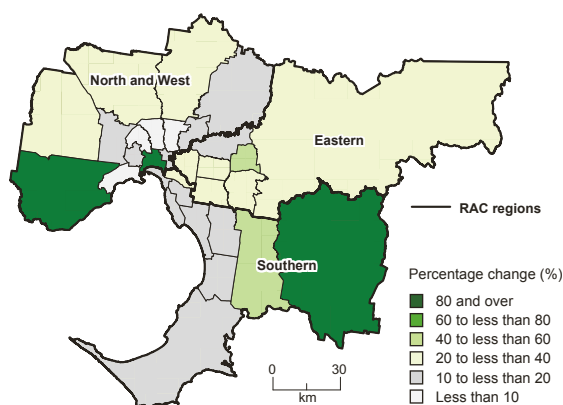

Figure 3 shows the distribution of LOTE speakers in metropolitan and regional LGAs. The concentration of LOTE speakers in Metropolitan LGAs coincides with the pattern for overseas-born residents.

In Regional Victoria, there are significant numbers of LOTE speakers in Greater Geelong, Greater Shepparton, Latrobe, Mildura, Ballarat and Greater Bendigo.

Figure 4. Metropolitan Melbourne and Regional Victoria: % change of LOTE speakers by LGAs, 2016 and 2011

The growth patterns for LOTE speakers by LGAs between 2011 and 2016 can be seen from Figure 4. In Metropolitan Melbourne, the largest percentage increases were in the City of Melbourne, Wyndham (in the west) and Cardinia (in the southeast). These LGAs also experienced large increases in overseas-born.

In Regional Victoria, the largest percentage increases in LOTE speakers were in Greater Bendigo. Significant percentage increases also occurred in a number of LGAs such as Mitchell adjacent to Greater Bendigo, and Moyness and Colac in the southern part of the state.
