Hi,

thanks for agreeing to accept a late submission from me.

I am not sure what form it should take so I thought I would simply reply by this email.

Looking at the tribunal website, I doubt that my submission would be accepted anyway as it seems the Act is written that conditions cannot lessen.

However I would expect that you can write conditions into their pay arrangements that require each MP to prove their value for their community by improving their communities by means other than their parties "flagship" project. ie actually advance projects etc even if against their party policy.

thanks
Don Penrose
