Data Exchange Request Evaluation Checklist

Introduction

Overview

The Data Exchange Request Evaluation Checklist (checklist) is to be used by the department providing the data (Provider) when evaluating a data request made by a requesting department (Requestor).

Please refer to the Data Exchange Standard for the minimum requirements in undertaking a data exchange and the Data Exchange Guideline for further information on data request evaluation.

'Department' refers to all Victorian Government (government) departments and Victoria Police.

'Sensitive' data is data with a Business Impact Level (BIL) of Limited or higher or data with a protective marking of Cabinet-in-Confidence (as per the Office of the Victorian Information Commissioner's (OVIC) guidance on <u>Business Impact Levels</u> and <u>Protective Markings</u>)

Document Purpose

The purpose of the checklist is to enable a department that has been requested to provide data to examine the key considerations that should be covered when evaluating a data request. Completing the tasks on the checklist will help the Provider determine whether they have the right or authority to exchange the data and whether they are ready to undertake the exchange. Knowing what you can and cannot exchange and where accountability starts and finishes helps to protect the interests of not only the Provider, but the Requestor, the government, individuals and the community.

Audience

Participants involved in the data exchange in the Provider organisation.

Instructions for use

- 1. Complete the Required Information section.
- 2. Review and complete each task on the checklist.
- 3. The requirement number refers to the relevant requirement in the Data Exchange Standard.

4. Tasks can be completed and marked as 'yes', 'no', 'not applicable' or 'unsure' where relevant (see Table 1 below).

Table 1 - Completed - Yes, No, Not Applicable Unsure

Yes	The task has been satisfactorily completed.	
No	The task has not been completed or not to the level of satisfaction required the Provider.	
Not Applicable	This task is not required to be completed for this data exchange initiative or as a result of a response above it is unnecessary.	
Unsure	The Provider is unsure of the task or whether it has been completed and will need to seek further advice from a subject matter expert.	

The template should be adjusted to suit your specific department and or data exchange needs.
