Victorian Public Sector Data Sharing Framework

December 2024

About the VPS Data Sharing Heads of Agreement: This Agreement can only be used by any signatory to document a Data Sharing Arrangement with any other signatory or multiple signatories made under the VPS Data Sharing Policy, where data is requested for the purpose of *'policy making, service planning and delivery'*.

While use of this Agreement to document Data Sharing Arrangements helps foster consistency and expedites sharing, it is not mandatory. Signatories are free to document such arrangements using alternative instruments or agreements. In addition, this Agreement does not affect any existing data sharing arrangements that signatories have in place.

Also, all existing laws, standards and other requirements relating to data sharing continue to apply, including Privacy Law and the Victorian Protective Data Security Standards.

Note: Before using this Agreement to document your Data Sharing Arrangement, please check whether your department or agency has an internal policy in place to guide use.

BACKGROUND

- a. As policy work becomes increasingly fast-paced and citizens expect more responsive and integrated services, access to timely data is critical. The original VPS Data Sharing Policy and the VPS Data Sharing Heads of Agreement dated 16 August 2021 (superseded by the 19 August 2022 version) provided a clear framework and authorising environment to help accelerate data sharing and timely evidence-based decisions.
- b. The Data Sharing Policy will enable accelerated whole-of-government data sharing. This Agreement is an important part of implementing the Data Sharing Policy, signalling the Parties' willingness to continue to expedite data sharing across government.
- c. This Agreement facilitates expeditious sharing by setting out the general terms under which the Parties will share data under the Data Sharing Policy. Each specific sharing arrangement will be documented in a Data Sharing Schedule, allowing the parties flexibility to specify variables relevant to their particular circumstances, where appropriate.

SPECIFIC DATA SHARING ARRANGEMENTS

8. Purposes for Shared Data

- a) Data can only be shared by the Parties under this Agreement for the purposes set out in the Data Sharing Policy (if applicable).
- b) The Parties acknowledge and agree that at all times, Shared Data can only be collected, held, managed, used, disclosed or transferred in accordance with relevant Privacy Laws (as they apply to either the Data Provider or the Data User).
- c) The Data User agrees to only collect, hold, manage, use, disclose or transfer the Shared Data for the Permitted Purpose and not for any other purpose, except with the express written approval of the Data Provider.
- d) The purposes referred to at clauses 8(a) and (b) apply to any findings and outputs described at Item 2 of Data Sharing Schedule, as well as any on-sharing that may be permitted under Item 6 in the same Schedule.

9. Term and provision of Shared Data

- a) The Data Provider will provide the Shared Data in the manner and with the frequency in Item 3 of the Data Sharing Schedule, and for the term set out in the same Schedule. The Data Provider and Data User agree that the Data Sharing Arrangement can be terminated as set out in Item 11 of the Schedule.
- b) The Data Provider will advise the Data User of any additional data that may be relevant to the Permitted Purpose that the Data Provider is aware of.
- c) The Data User may request changes to the scope of the Shared Data, in which case the Parties will use reasonable endeavours to negotiate amendments to the description in the Data Sharing Schedule. Any significant changes to the scope of the Shared Data must be agreed and executed in writing between the Parties.
- d) The Data Provider and Data User will take steps (if any) in relation to data quality that are set out in Item 5 of the Data Sharing Schedule. The Data Provider and Data User also agree to notify each other of any missing values, inconsistencies, inaccuracies, or other data quality issues in the Shared Data of which they are aware, or become aware, that are not dealt with under Item 5. The Data Provider and Data User shall agree on how to remediate any notified data quality issues.

- a) The Data User will only collect, hold, manage, use, disclose or transfer the Shared Data, and will keep any files containing the Shared Data confidential, as set out in Item 4 of the Data Sharing Schedule.
- b) In particular, the Data User may only use the Shared Data to produce the outputs and deal with the outputs in a manner described in Item 2 of the Data Sharing Schedule or on-share the Shared Data as permitted under Item 6 of the same Schedule. If Item 2 specifies that the outputs are confidential the Data User must keep those outputs confidential and the Data User is not permitted to release those outputs to any third parties. The Parties acknowledge that Shared Data may be incorporated in the intended outputs, on the basis that this is in accordance with clause 12. If the Data User wishes to distribute the outputs or on-share the Shared Data outside of the terms of Items 2 or 6 of the Data Sharing Schedule, the Data User must obtain the prior written consent of the Data Provider.
- c) Notwithstanding clauses 10(a) and (b), the Data User may, where permitted under law (including Privacy Law), grant access to the Shared Data:
 - i. subject to any terms to the contrary in the Data Sharing Schedule, to its employees, agents (contractors and consultants), volunteers, advisors, officers, officials, or Ministers and ministerial offices where this is consistent with the Permitted Purpose;
 - ii. in relation to requests to provide information and documents from agencies or entities with powers of investigation under law, including, but not limited to, the office of the Auditor General, the Victorian Ombudsman, or the Independent Broad-based Anti-Corruption Commission, provided that before doing so, and if legally permissible, the Data User provides the Data Provider a reasonable opportunity to provide input, including taking any steps necessary to protect the confidentiality of the Shared Data; and
 - iii. to comply with the law, including under Privacy Law or FOI Law, provided that before doing so, and if legally permissible, the Data User provides the Data Provider a reasonable opportunity to provide input, including taking any steps necessary to protect the confidentiality of the Shared Data.
- d) For the purposes of clause 10(c)(i), the Data User agrees to make all reasonable efforts to ensure all individuals who are granted access to the Shared Data are aware of the obligations under this Agreement and the Data Sharing Schedule.
- e) Where the Data User grants access to the Shared Data to any agent (contractors / consultants) or volunteer under clause 10(c)(i), the Data User must in addition to clause 10(d) ensure the agent or volunteer is legally bound by

terms equivalent to the terms set out in this Agreement and the Data Sharing Schedule, in relation to the handling and security of the Shared Data.

12. Handling and security of Shared Data

- a) At all times, the Data Provider and Data User will only collect, hold, manage, use, disclose or transfer Personal Information and Health Information (or other information restricted or prohibited from disclosure by law) for legally authorised purposes and in a manner that complies with Privacy Law (as it applies to either the Data Provider or the Data User).
- b) Notwithstanding clause 12(a), the Data Provider and Data User will adhere to a collection minimisation principle and only collect, hold, manage, use, disclose or transfer information to the extent that is necessary and relevant to the Permitted Purpose.
- c) Where this information is not needed for the Permitted Purpose, the Data Provider shall ensure that the Shared Data does not contain any:
 - i. Personal Information;
 - ii. Health Information; or
 - iii. other information that is subject to a restriction or prohibition from disclosure by law.

- d) Where Personal Information or Health Information is necessary, and it is legally permissible for the Data User to use this information for the Permitted Purpose, a privacy impact assessment shall be conducted and documented in **Annexure 2** to this Agreement. The Data Provider and Data User agree to comply with all conditions and terms of use in Item 4 of the Data Sharing Schedule, which reflects the risk assessment conducted in the privacy impact assessment.
- e) The Data Provider and Data User will protect the Shared Data that has been collected, held, managed, used, disclosed or transferred by them in a way that is consistent with the Victorian Protective Data Security Standards and as set out in Item 3 of the Data Sharing Schedule.
- f) The Data User will conduct a security assessment in consultation with the Data Provider, documented in the form of **Annexure 3** to this Agreement.
- g) In particular, the Data User will make all reasonable endeavours to keep the Shared Data in a secure location within Australia with adequate security controls (including governance, information, personnel, ICT and physical) , to maintain the confidentiality, integrity and availability of the Shared Data, and to protect the Shared Data from misuse, loss, unauthorised access, modification or disclosure.

- i) The Data User agrees to use all reasonable endeavours to assist the Data Provider to plan and prepare, detect and report, assess and decide and respond to the circumstances listed in clauses 12(h) in a timely manner to mitigate any potential harm to affected persons or organisations.
- j) In addition, the Data User and Data Provider will promptly notify:
 - i. the Office of the Victorian Information Commissioner of incidents that compromise the confidentiality, integrity and/or availability of the Shared Data, in a way that is consistent with their obligations under the Victorian Protective Data Security Standards;
 - ii. the Victorian Government Cyber Incident Response Service of incidents that compromise cyber security; and
 - iii. the Keeper of Public Records of incidents that breach the Public Records Act (or equivalent public record keeping laws in the relevant jurisdiction).

- k) At all times, the Data Provider and Data User will capture, control, manage, use and dispose of shared data in a manner that complies with Privacy Law, the Public Records Act and any associated Recordkeeping Standard (or equivalent public record keeping laws in the relevant jurisdiction).

13. Retention and destruction of Shared Data

- a) Once the Permitted Purpose is fulfilled, the Data User will dispose of the Shared Data in accordance with Privacy Law, the Public Records Act (or equivalent public record keeping laws in the relevant jurisdiction), including the Recordkeeping Standard (or equivalent in the relevant jurisdiction) and in accordance with Item 8 of the Data Sharing Schedule.
