

PROGRAM DATES

This is a tentative schedule and dates are subject to change. A finalised program schedule will be released at the time of announcing scholarship recipients. Please note the program dates include a combination of core sessions, which are compulsory, and a range of additional program options which can be individually selected.

Additional time commitment will also be required for other networking opportunities and self-directed activities that will take place outside the facilitated program sessions.

Please note: attendance at activities highlighted in *italics* is dependent on the tailored solution you select for yourself.

Date	Program Activity	Time
